Model: Likelihood of being a Democrat

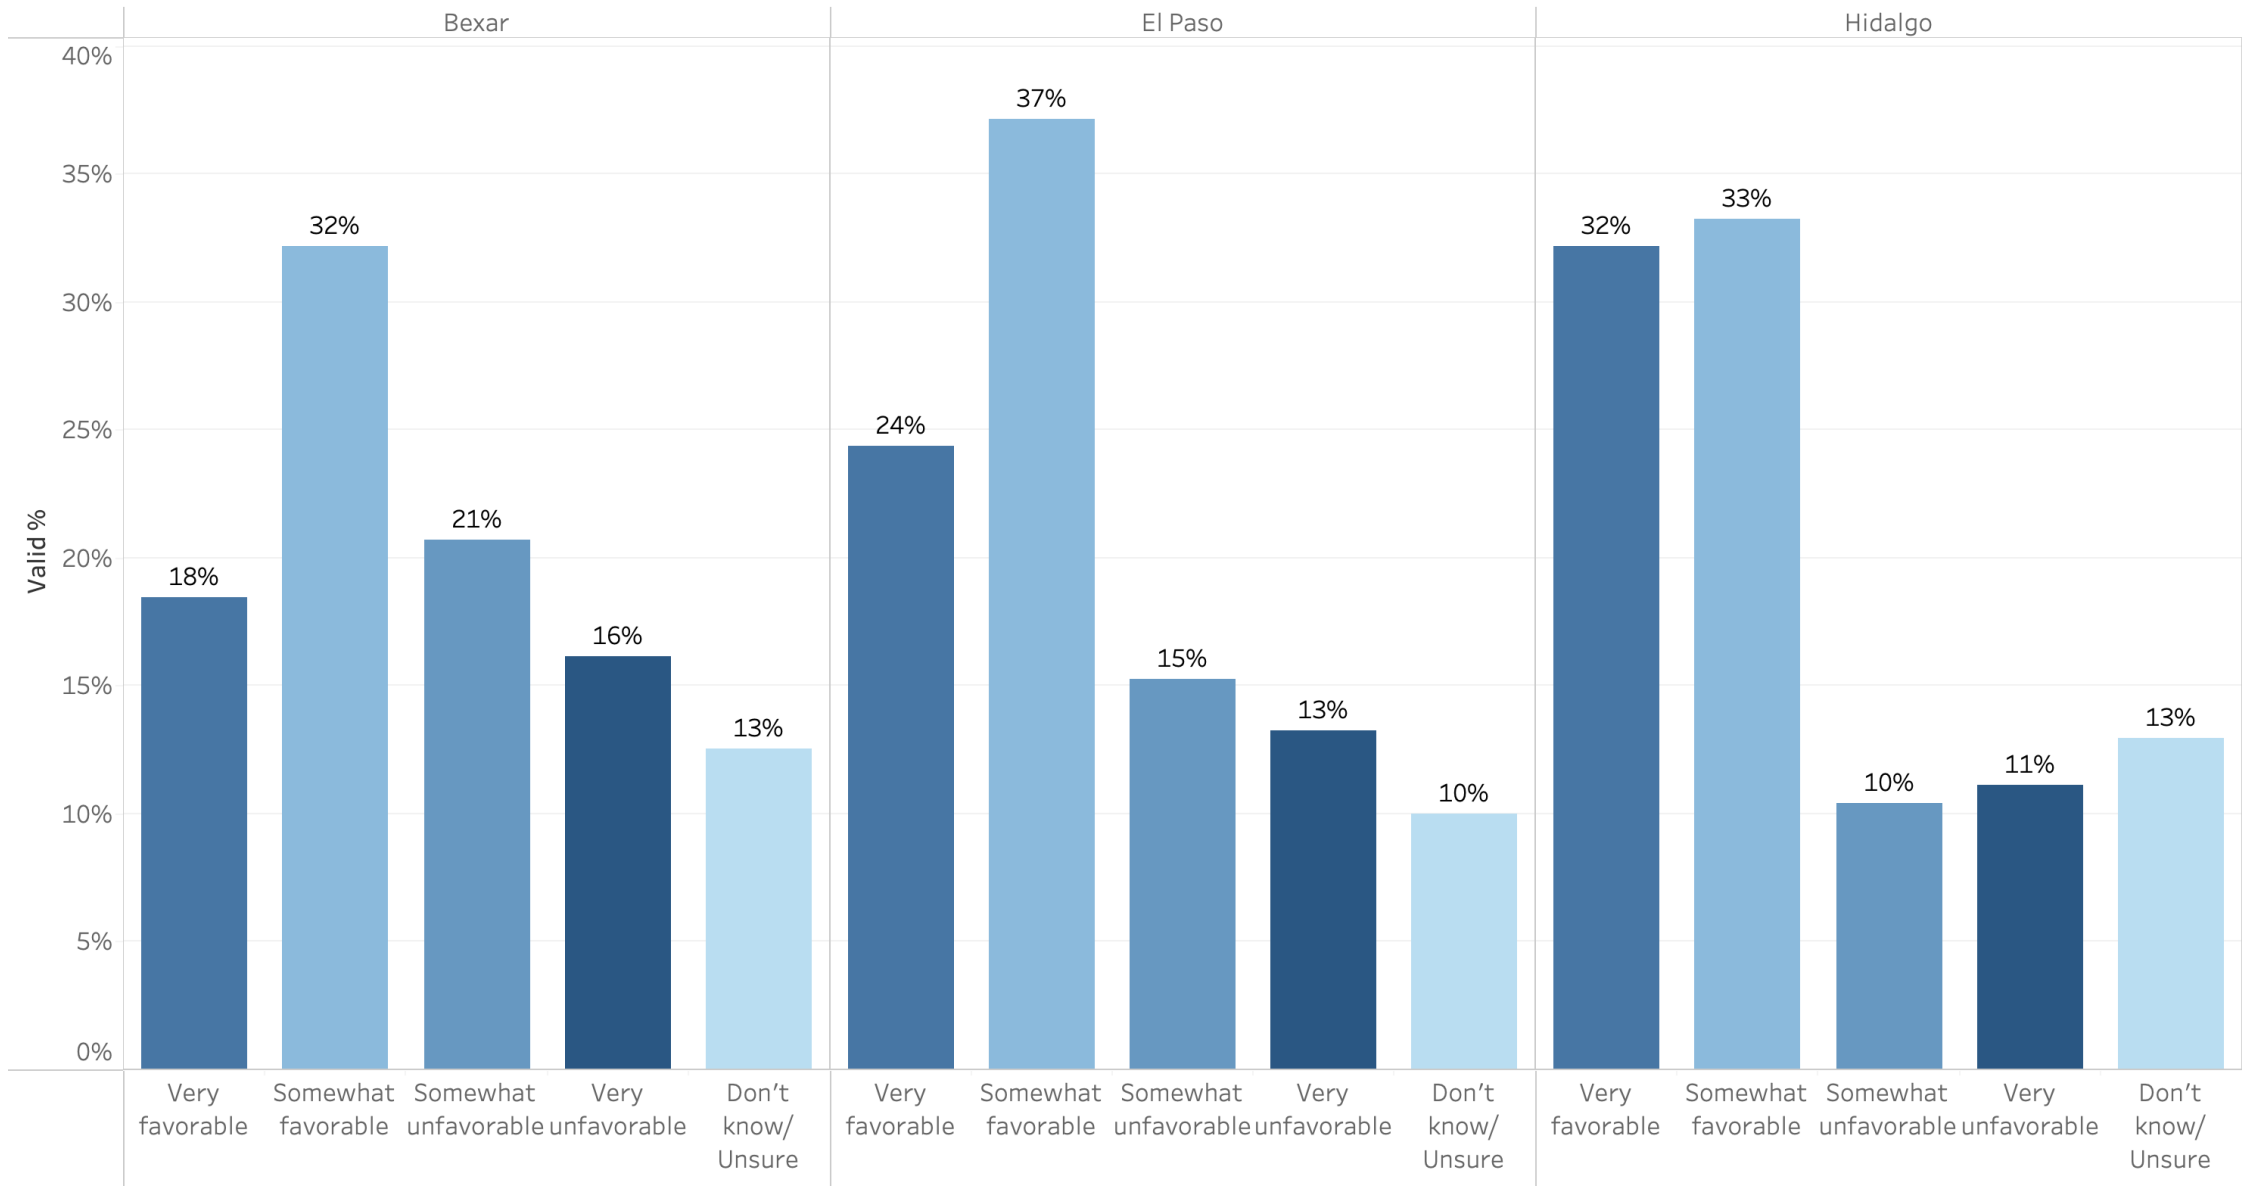

Do you consider yourself a Democrat, Republican, or Independent?

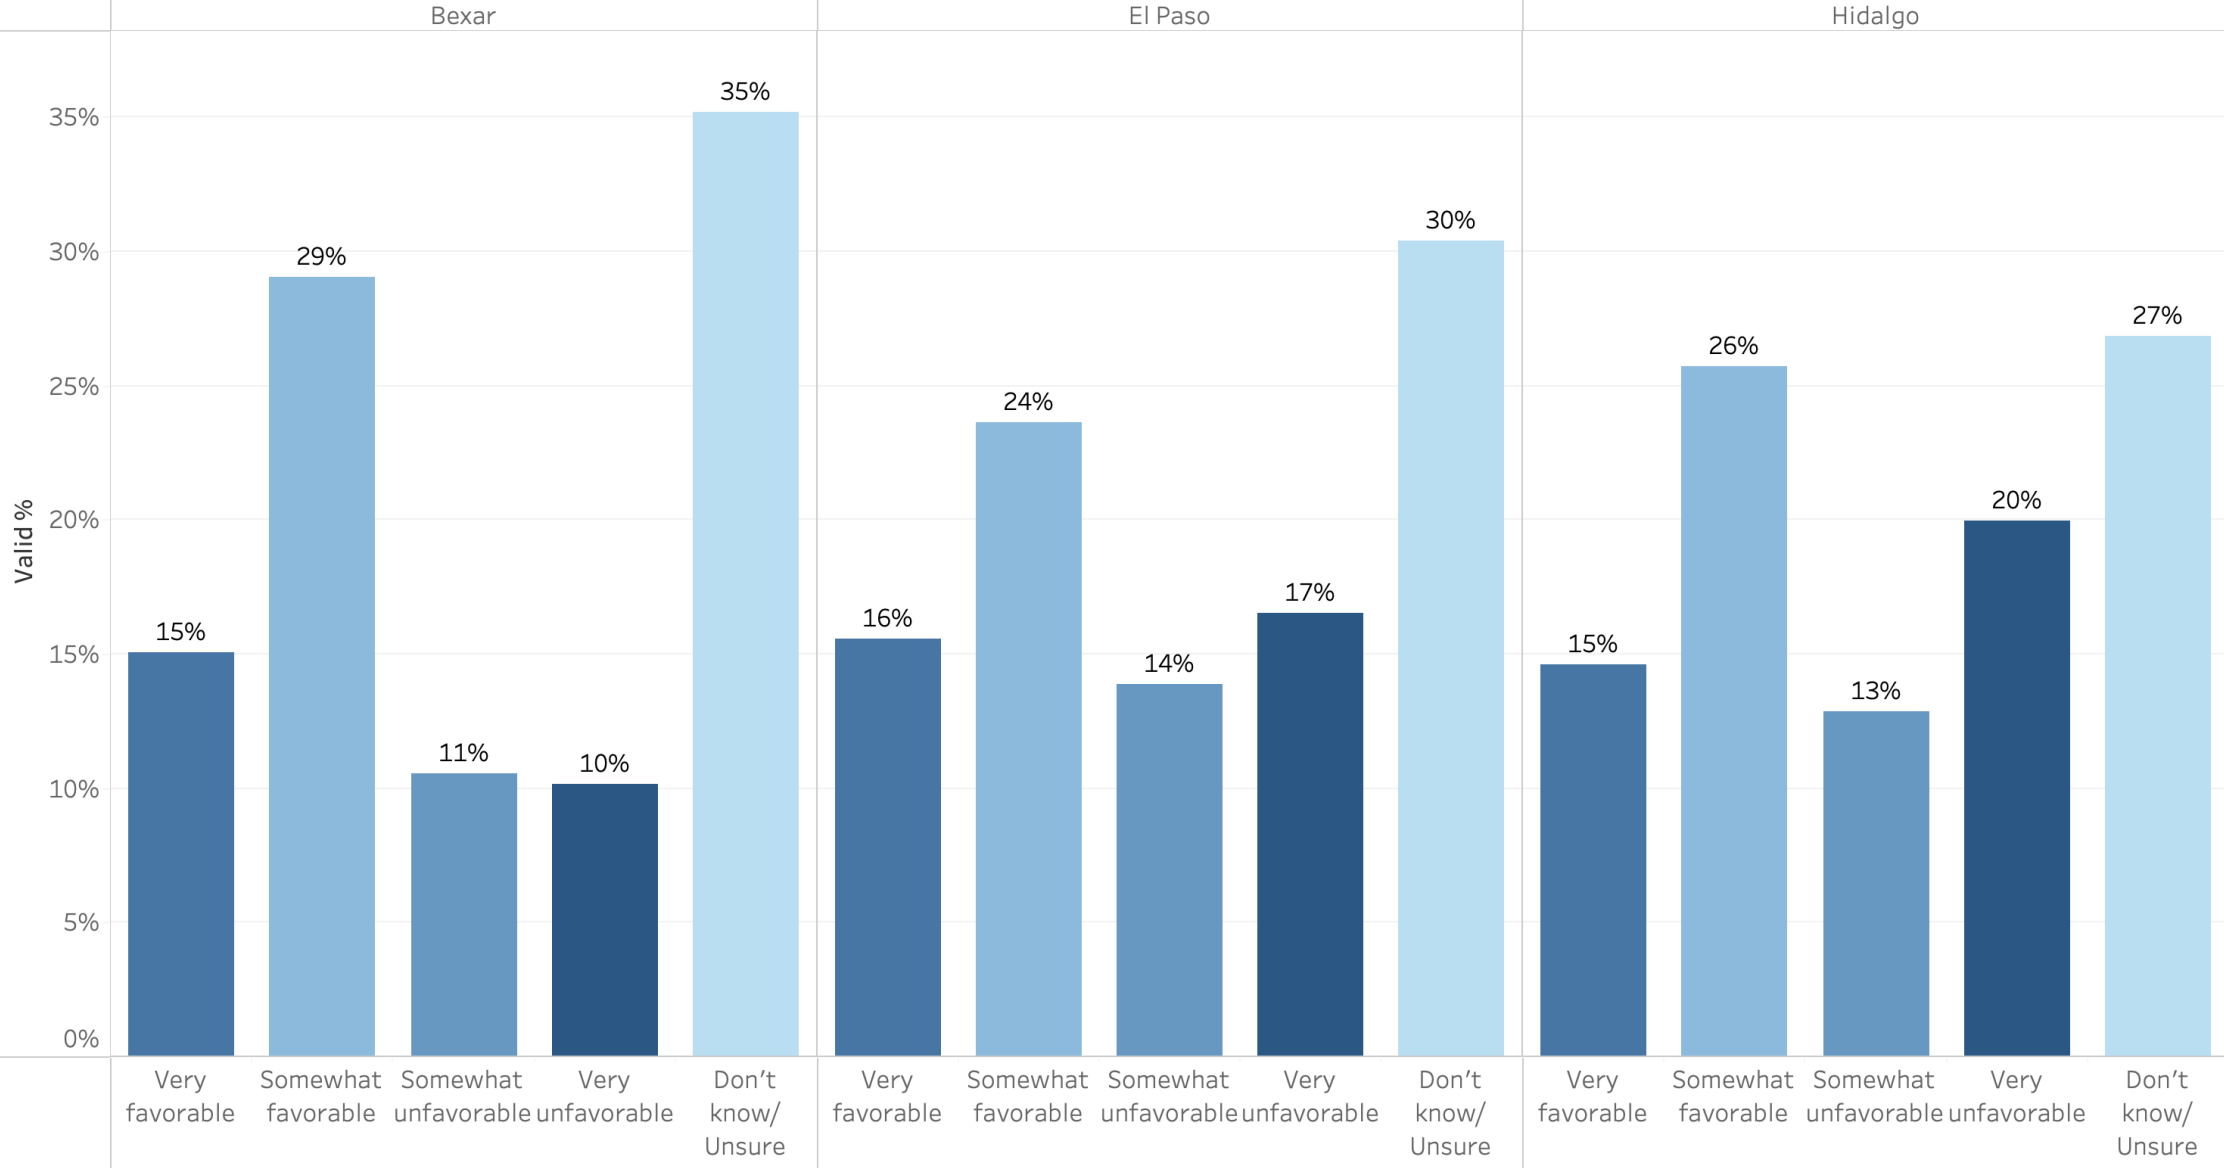

Favorability: Texas State Legislature

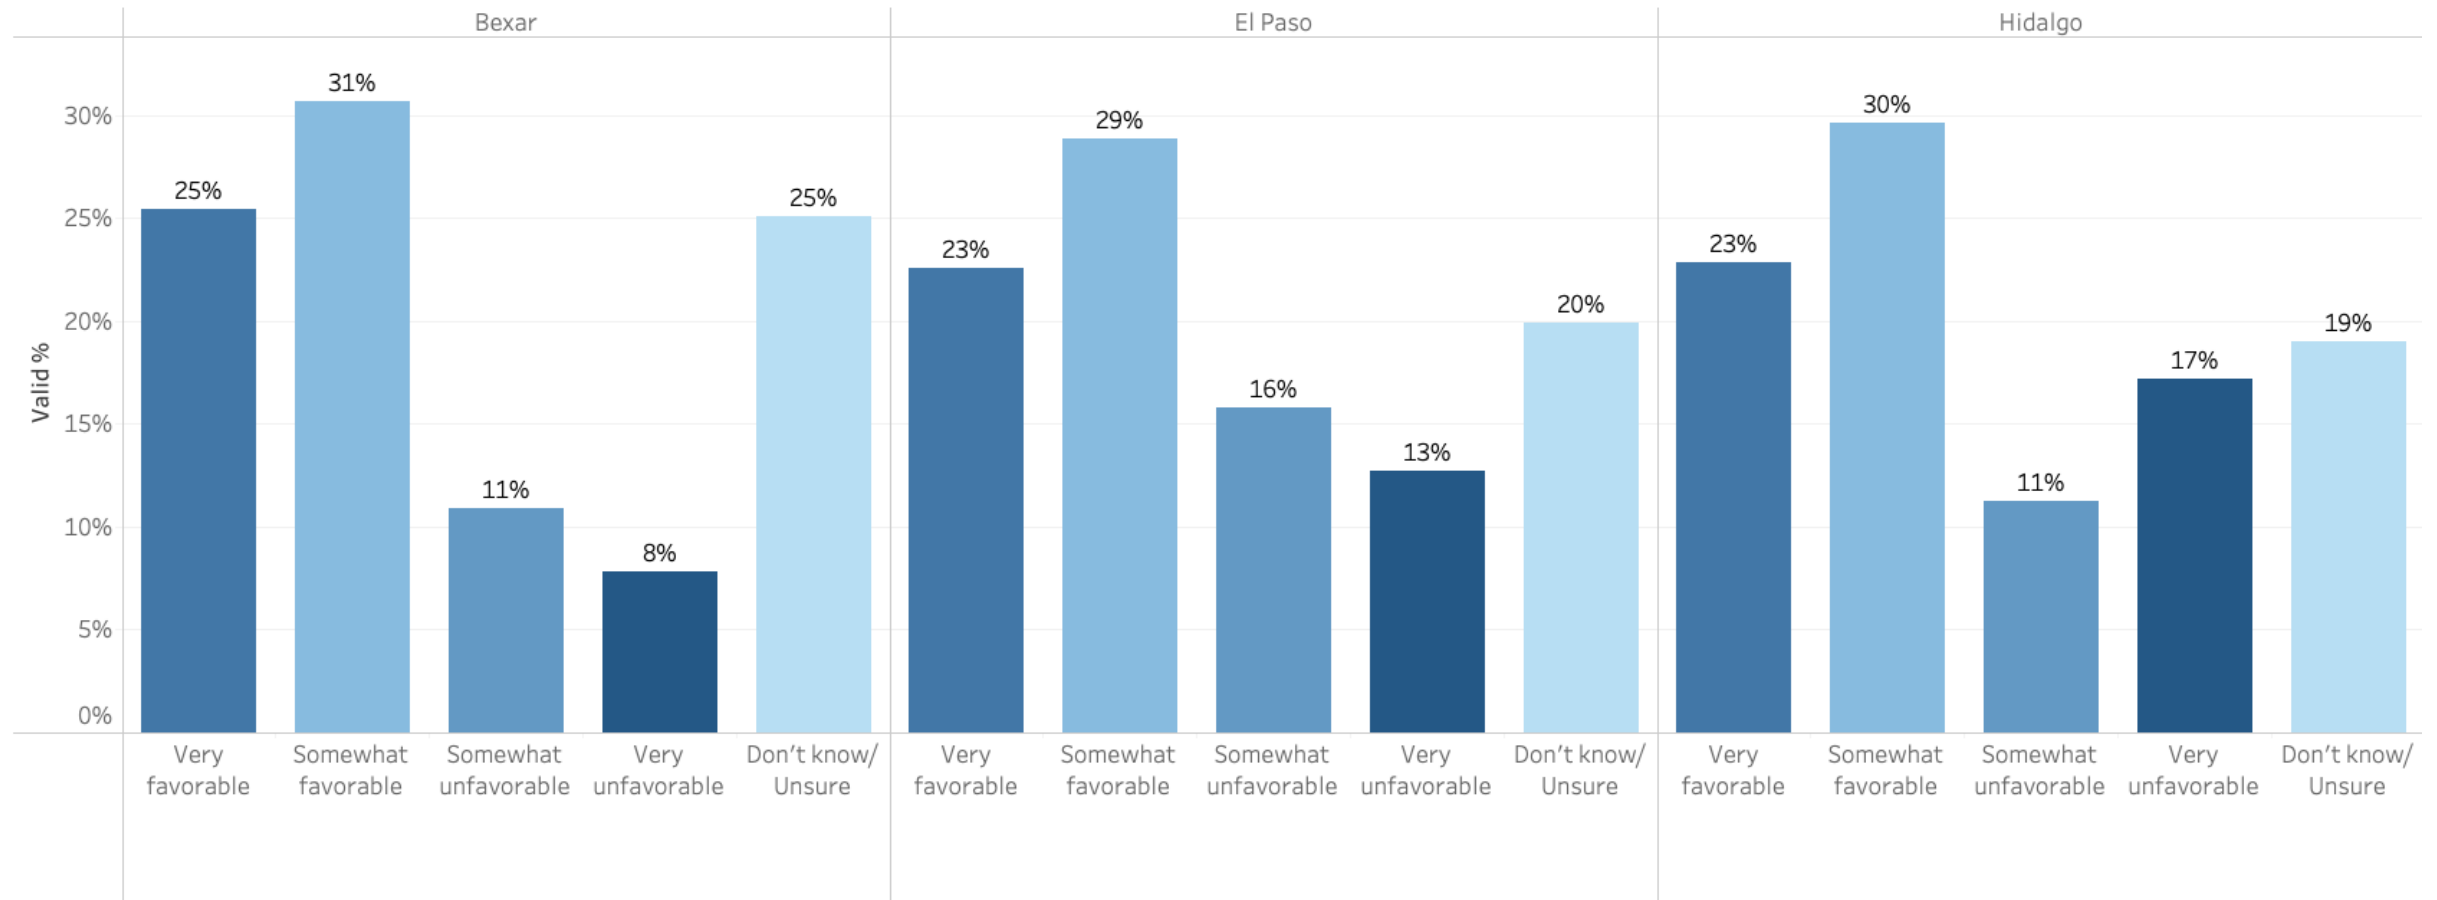

Favorability: Texas Public Schools

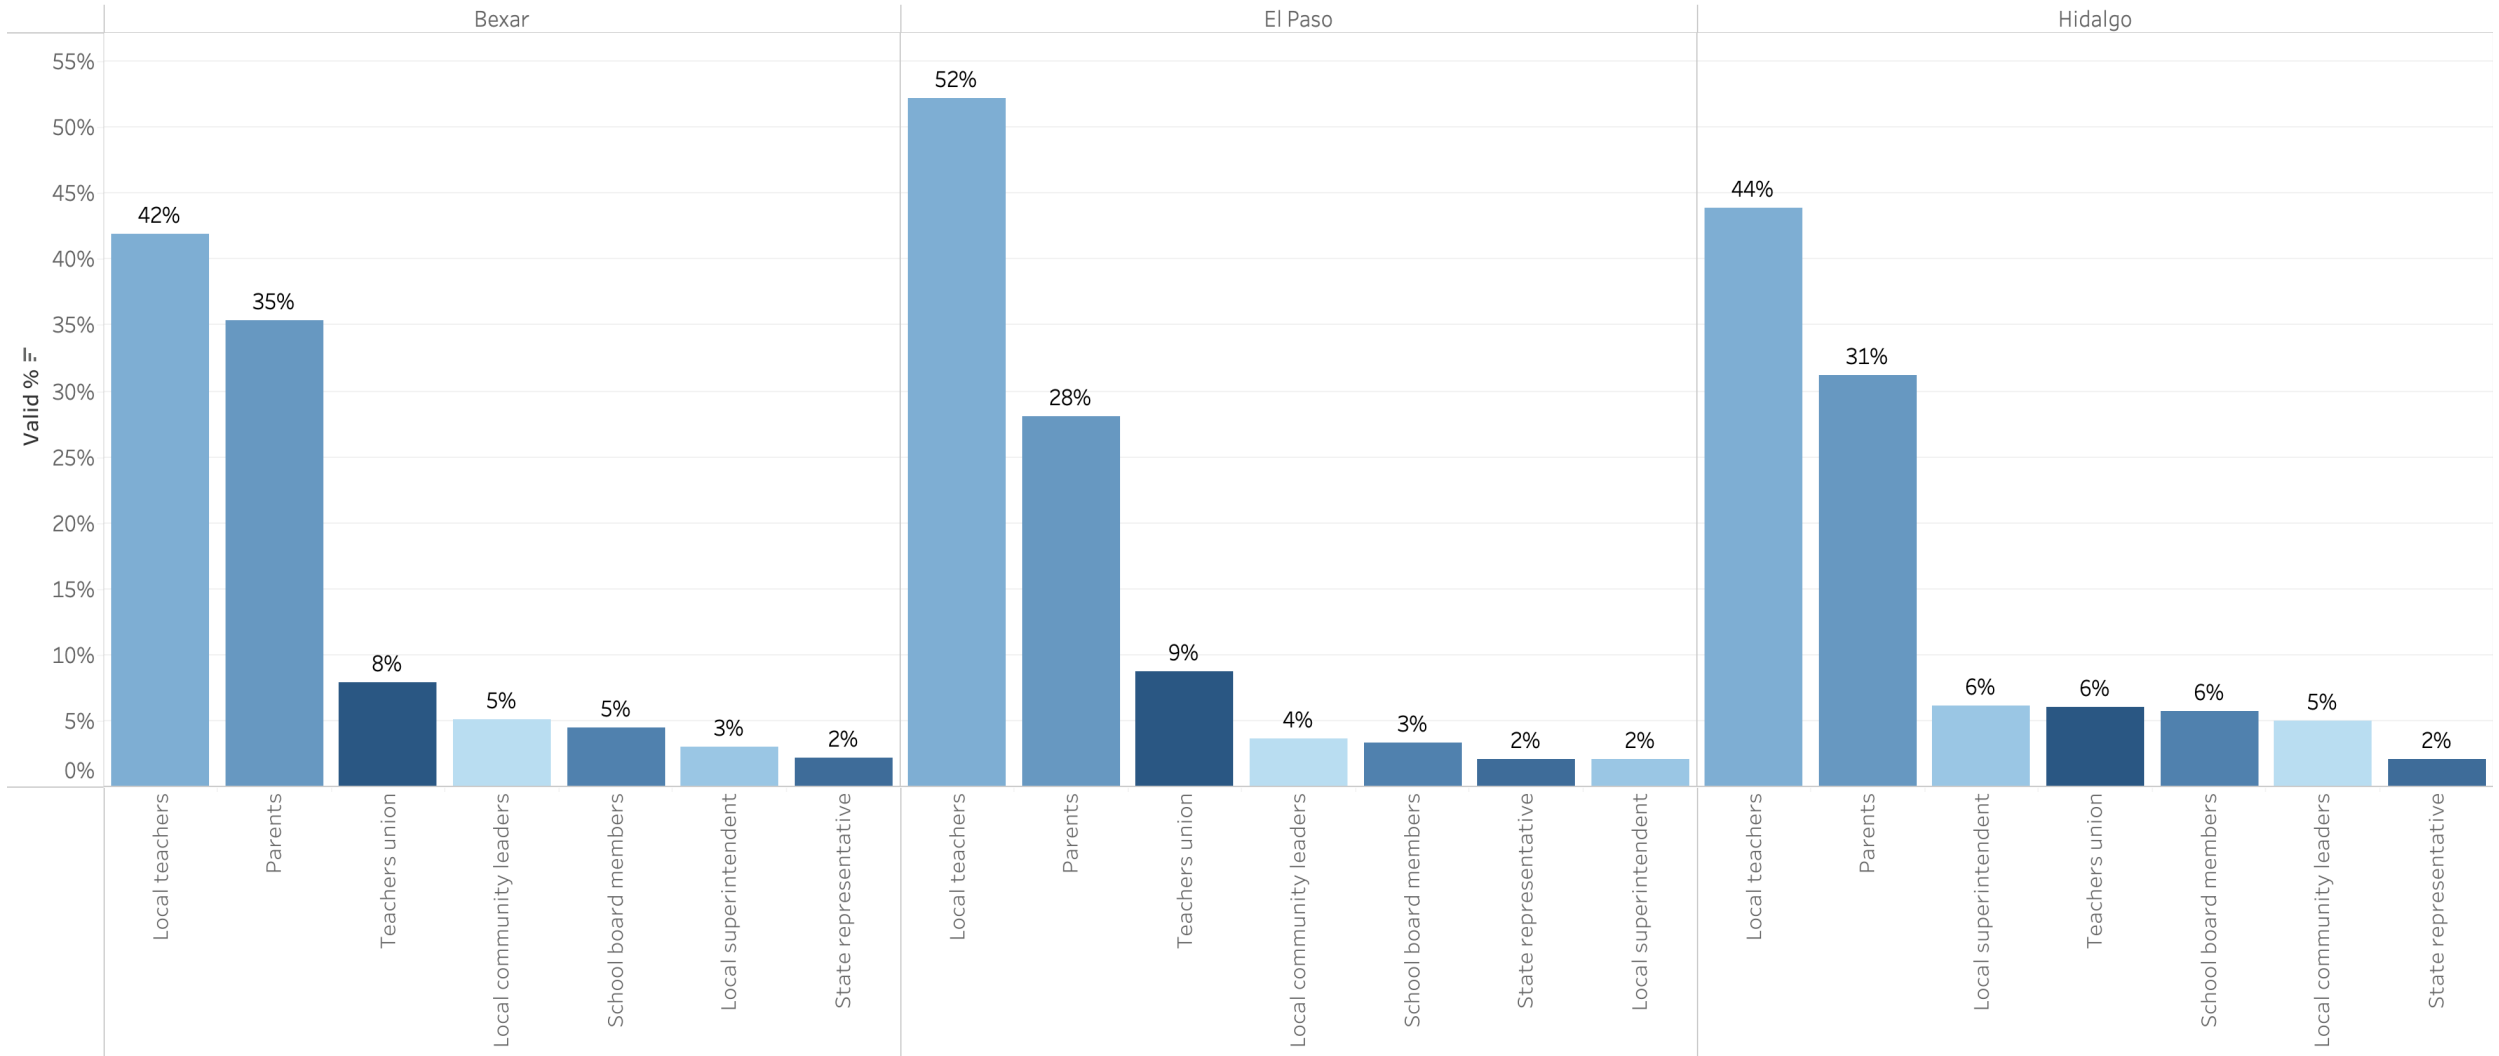

Favorability: Texas Non-Profit Public Charter Schools

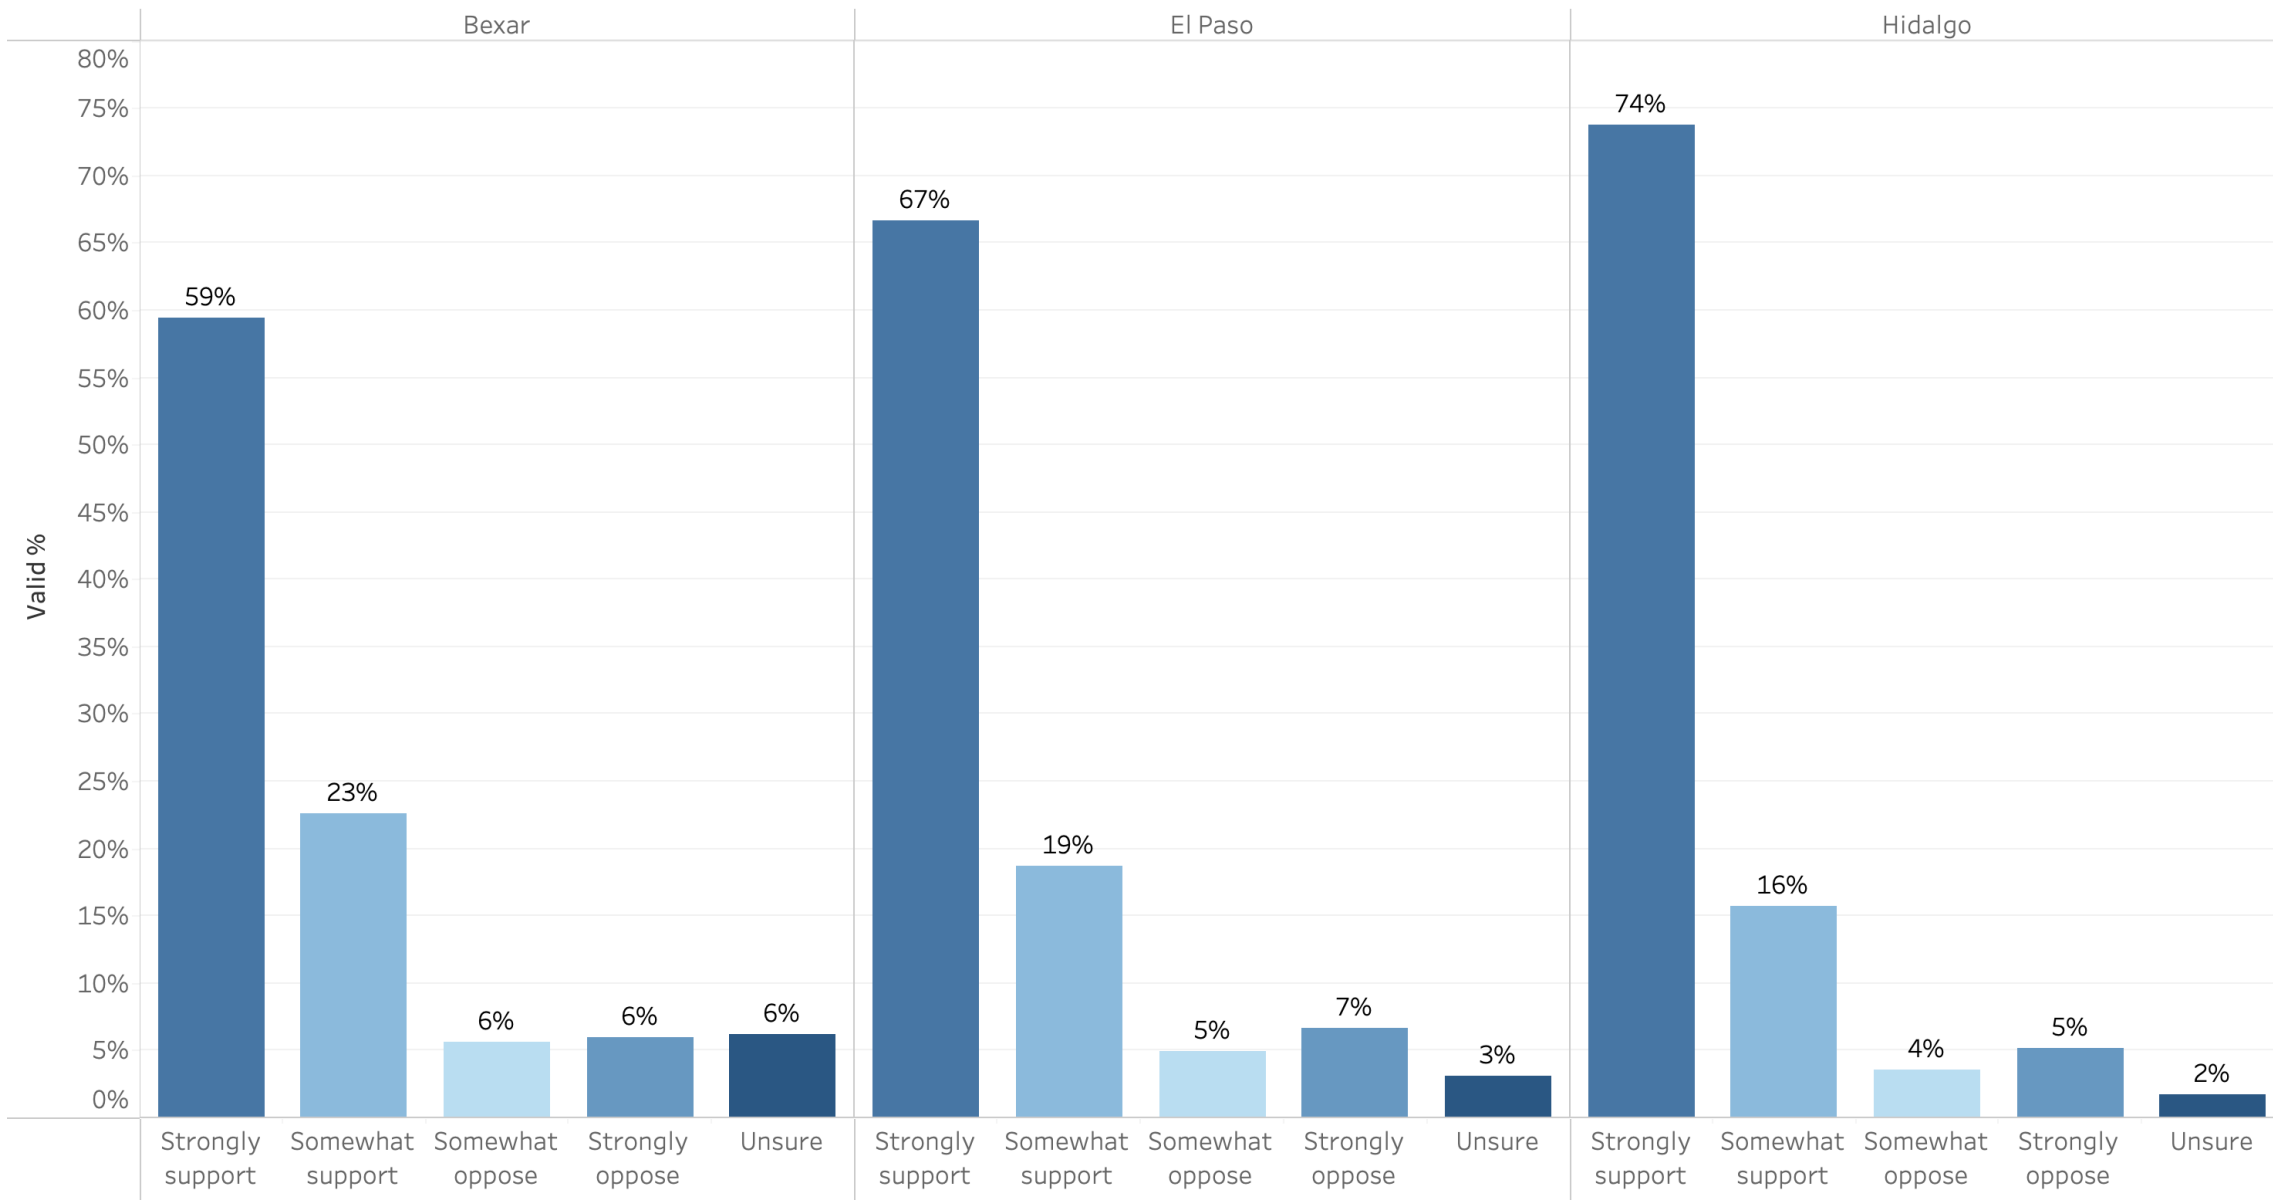

Favorability: Please keep in mind that when we talk about non-profit public charter schools in Texas, they are schools that are operated independently from the regular school district system, but they are still public schools that are free for students and must meet state accountability standards. Over 375,000 Texans are enrolled in public charter schools, 80% of the students are African American or Latino. Sometimes during a survey like this people change their minds, sometimes they do not. Do you have a favorable or unfavorable impression of Public Charter Schools?

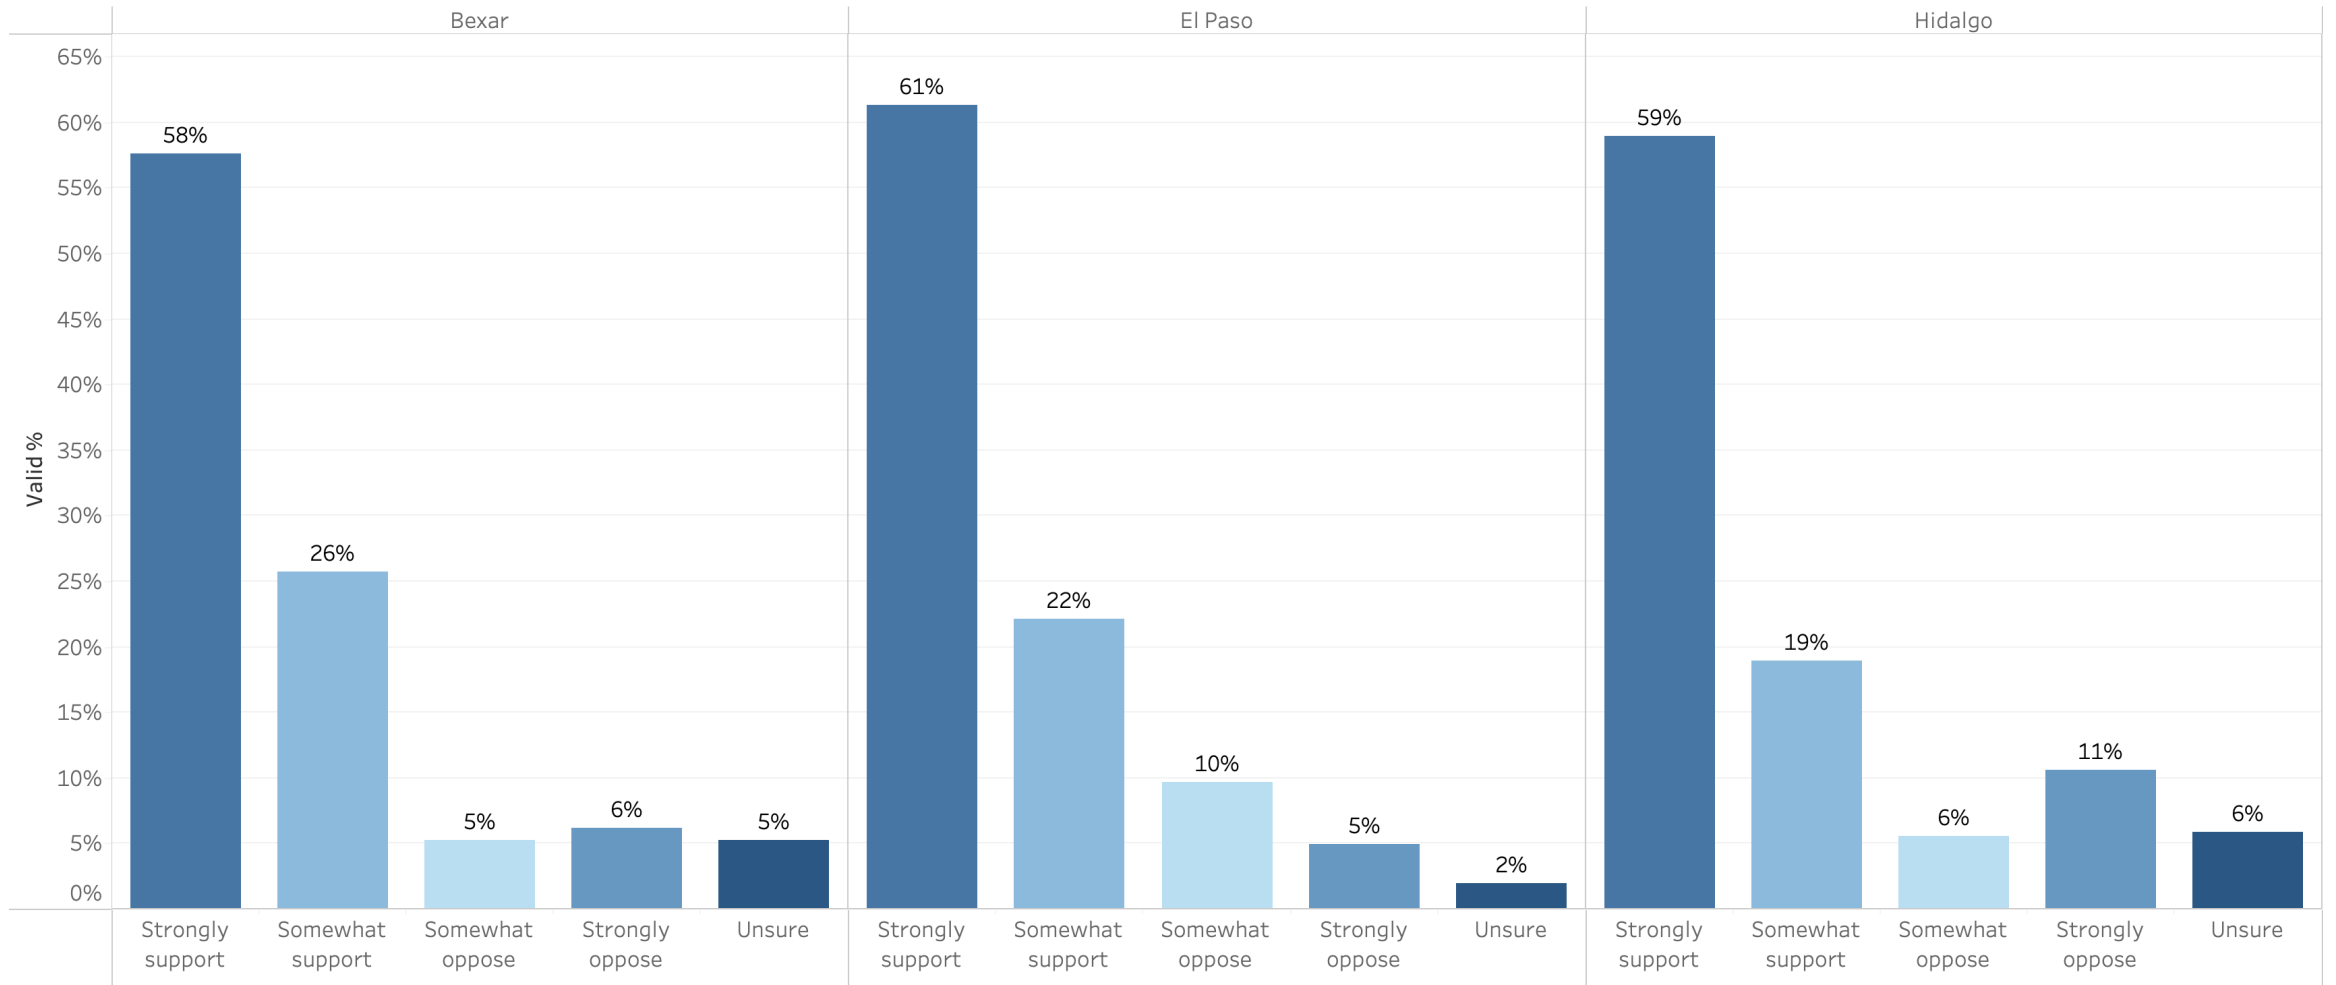

When it comes to issues related to education and schools, whom do you trust most?

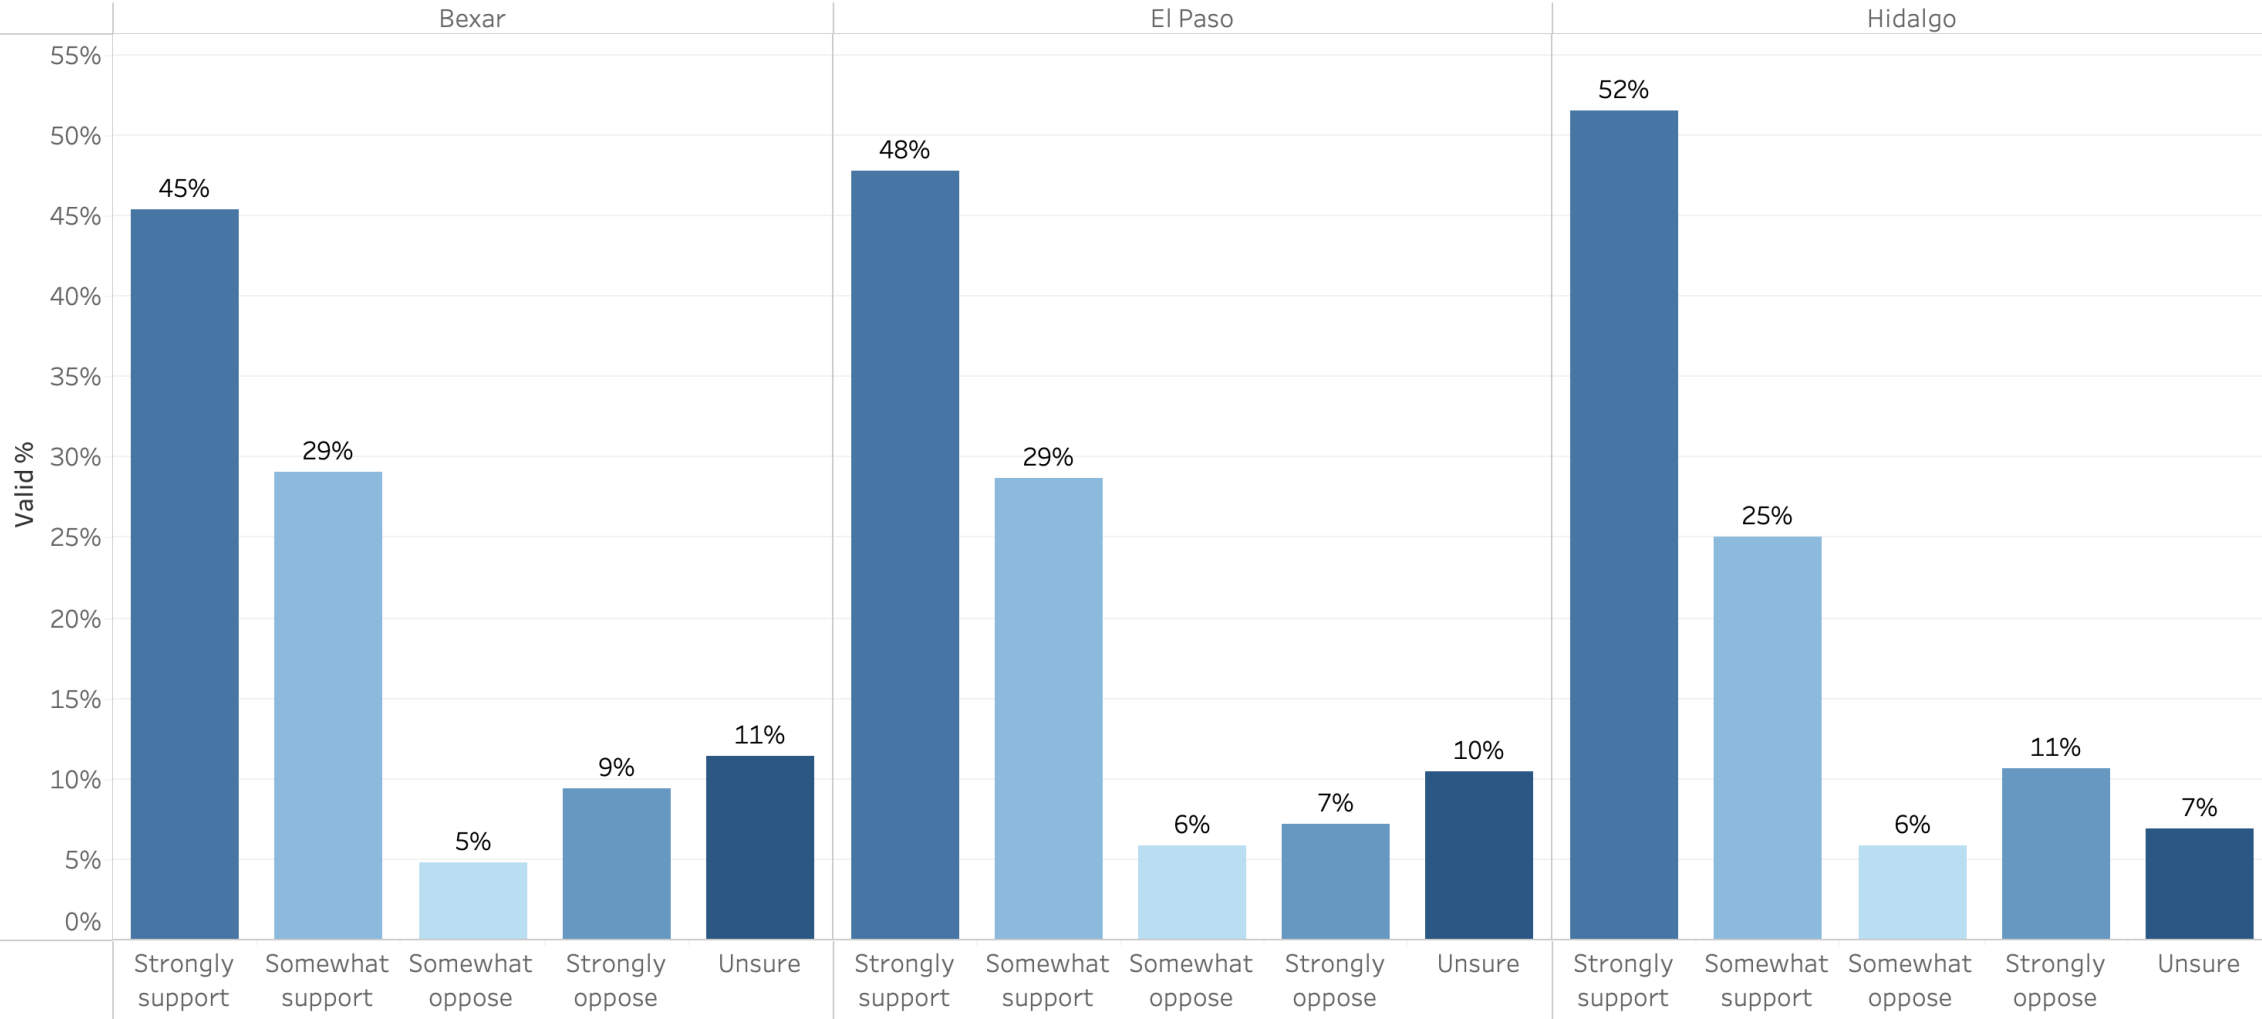

Do you support a measure that would increase funding for all public schools in Texas?

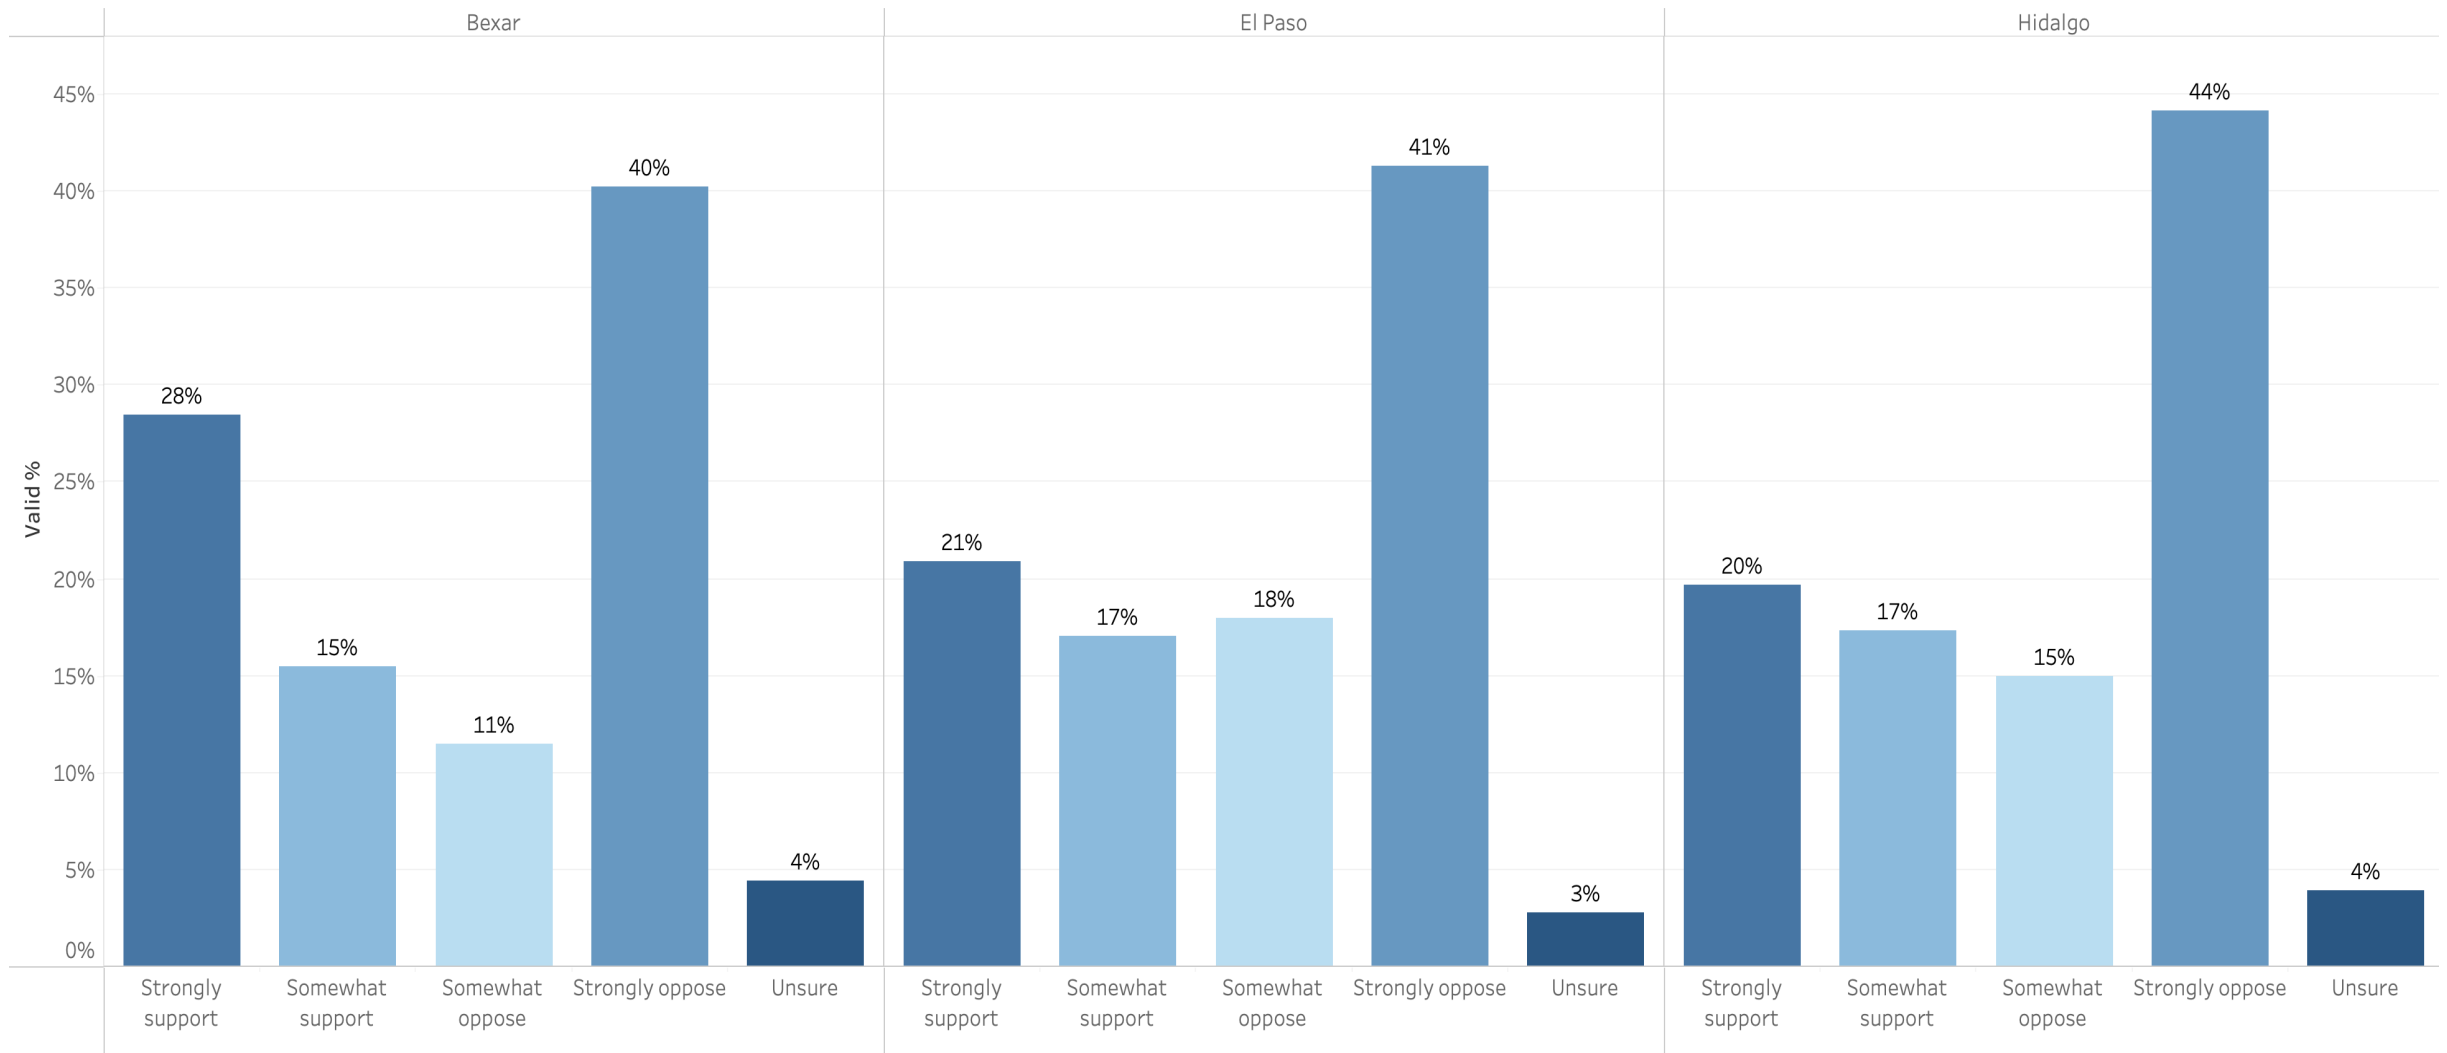

Would you support proposals to expand access to more educational choices within the public education system, including magnet schools, career academic and public charter schools?

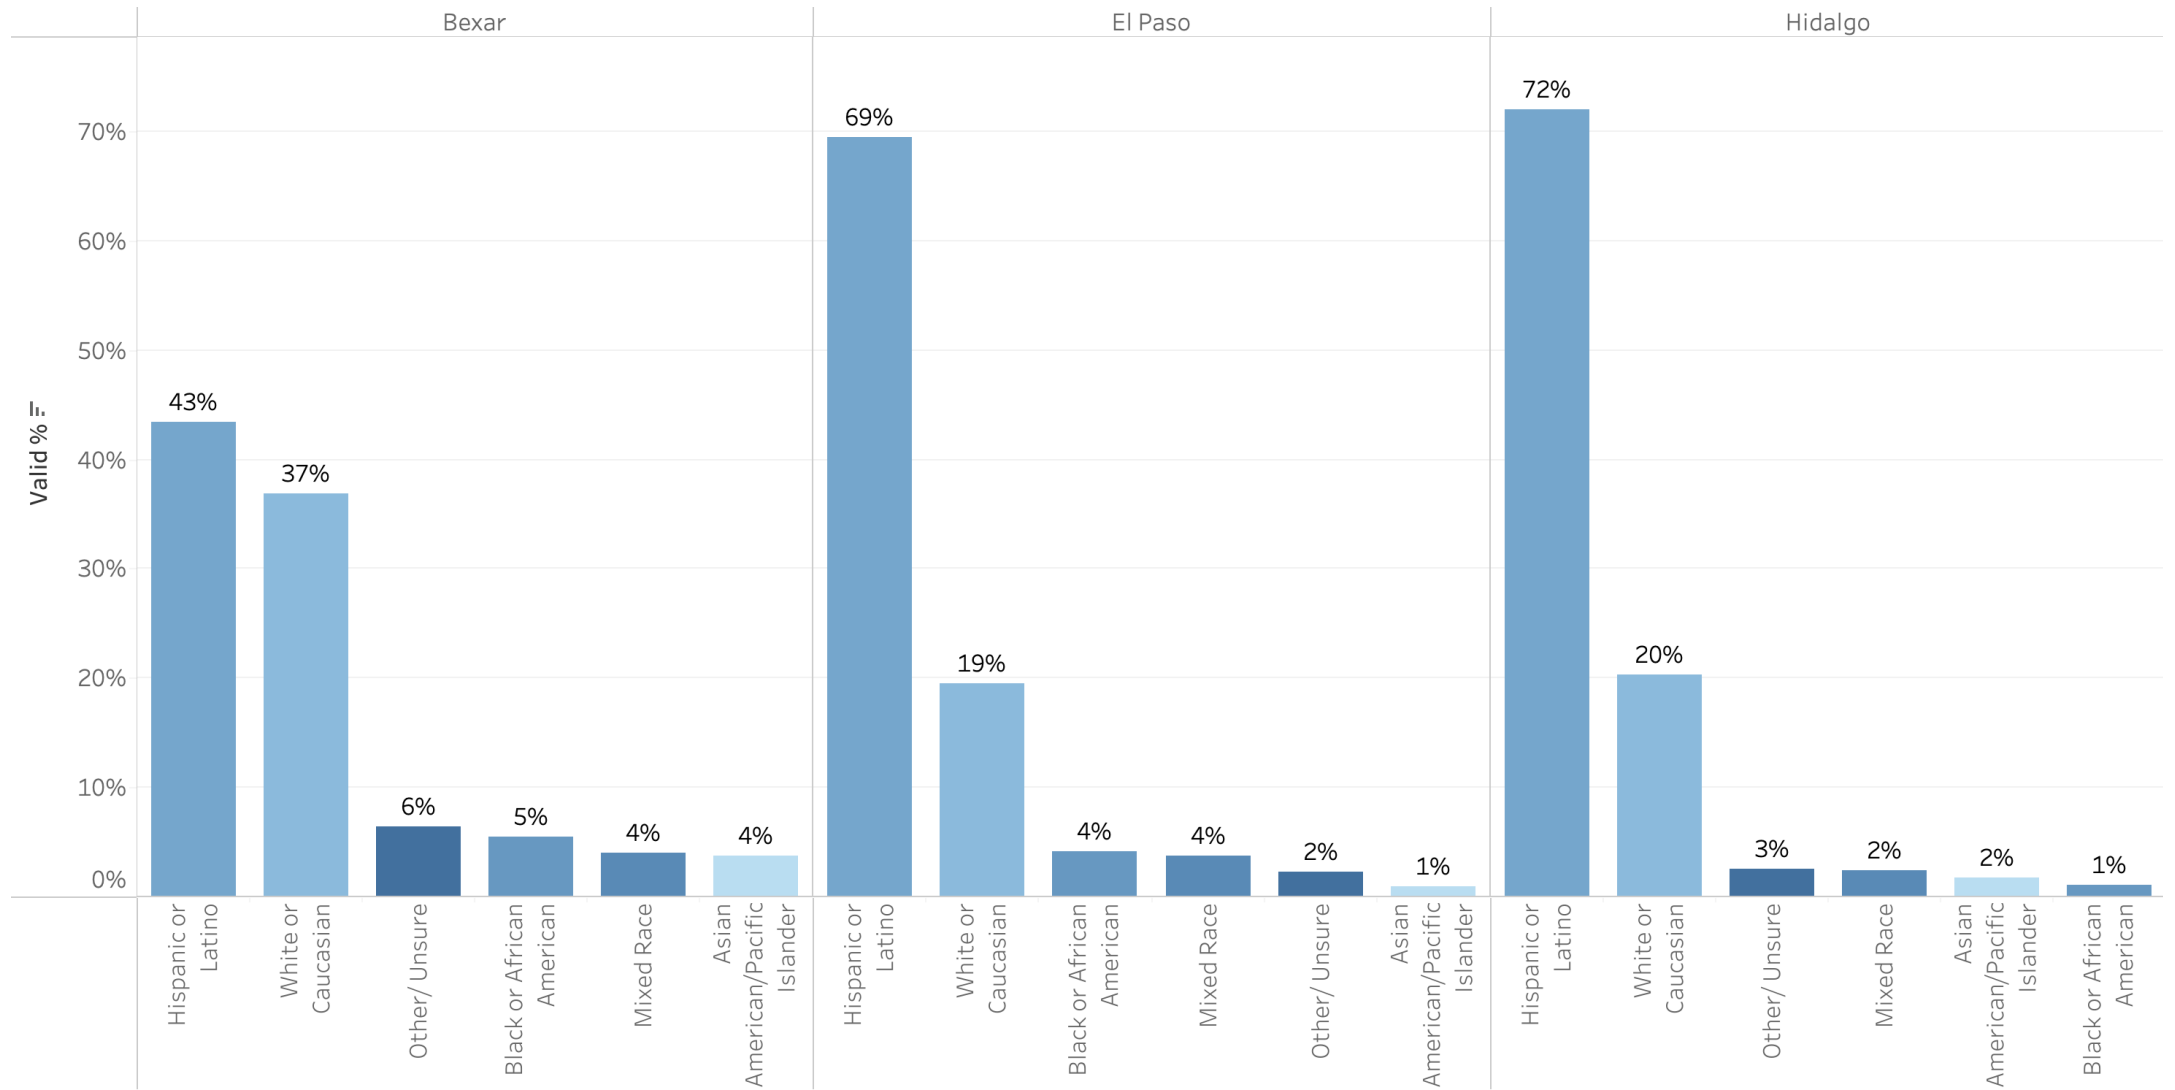

Currently the Texas legislature is looking at policies that would remove administrative, local government red tape that is diverting funding from non-profit public charter school classrooms and students. The proposal would ensure local governments treat all public schools equally so funding and time can be used to support students in the classroom. Would you support this proposal?

Texas lawmakers are debating whether to divert funding from traditional public and public charter schools to pay for funding for students to attend private and religious schools. Do you support this proposal?

Just to make sure we have a representative sample, which of the following ethnic groups describes you best?

Are you the parent or guardian of any children eighteen years of age or younger currently living in your household?
